Transition Planning & Addressing the Needs of a Family/Closely-Held Business

Did you know that...

- 95% of all businesses in the U.S. are family-owned or closely held.
- Within the next 5 years, as many as 65% of family business owners are expected to transition out of the business.
- Fewer than 40% of businesses successfully transition to the next generation of management.

IMEC is passionate about making a difference by providing these businesses with the information and services they need, in a cost-effective manner, to **thrive today and successfully transition tomorrow.**

IMEC and the Calumet Area Industrial Commission will conduct a unique event for family and closely-held businesses to learn more about the components of a company transition as it relates to business planning for the future. This includes a detailed look at the key issues facing company leadership and the tools and resources IMEC can provide to make the transition as painless as possible.
