

CITY OF BLUE ISLAND

Request for Proposals

Project Summary

The City of Blue Island is seeking to replace approximately 1,220 linear feet of damaged chain link fence with decorative steel fence near and surrounding the Rock Island Metra train station primarily for safety and security, and secondarily to compliment the aesthetic of the recent renovation of the historic train station.

Scope of Work

1. Removal of approximately 1,220 linear feet of chain link fence.
2. Installation of approximately 1,220 linear feet of powder-coated black decorative 4ft fence, design to be approved by the City of Blue Island
3. Fence shall follow all local building codes for installation.

Contact Name and Information

Interested contractors shall make an appointment with the City of Blue Island Public Works Supervisor, Michael Schroeder for exact site measurements and other details regarding this project. Mr. Schroeder can be reached at mschroeder@cityofblueisland.org or (773) 882-2960
